

Be part of it!

16–17 May 2022

POWERFUEL Conference

Powerfuel Week – different modules that together form a novel concept that will be absolutely exceptional! Combining information with the unique facilities of the Swiss Museum of Transport, Switzerland's most visited museum, Powerfuel Week consists of a conference and an accompanying trade fair for interested specialists and nine days of public events centred on hydrogen technology for the many daily museum visitors.

Participant ^{16–17 May 2022} POWERFUEL Conference

As a participant in the Powerfuel Conference, you can take part in the conference and a unique evening event with dinner from 16 to 17 May 2022. Fascinating talks from the worlds of politics, science and business await you. The focus is on national and international activities (Europe, Asia and North America). The unforgettable evening event will take place in the aviation and space travel hall and offer a varied programme with a visit to the planetarium and the exclusive evening museum tour "A night in the museum".
